<a href="#">9ed3c8</a>	32 lines	Summary: Function beforeDrawLegendItem() only works for Bar, Area, Meter, Pie, Stock Chart Bugzilla Bug (s) Resolved: 161199 Description: Support the dynamic size of legend graphics for Line, Scatter, Bubble, Difference and Gantt charts. The dynamic size will not distort the markers in the legend, so in the process of rendering, the chart engine does the steps as follows: 1. Compare the width and height of bounds, and use the smaller one to compute the graphics. 2. If the smaller figure is less than zero, use actual marker size instead. Support the separated width & height setting of bounds for the case of LegendItemType = Category. Originally the graphics is always a square, and only height setting can take effect. Tests Description: Test Manually.
